

**AMENDMENTS TO THE ABSTRACT OF THE DISCLOSURE**

Please enter the following Abstract of the Disclosure in the record:

A plastic compound includes at least one polymer and at least one organic starting compound having a decomposition temperature  $T_z$  and formed of at least one ceramic material comprising a glass and/or a starting material of glass. Also, the plastic compound includes at least one glass material for forming a glass ceramic with the aid of the at least one ceramic material, the glass having a glass transition point  $T_g$  that substantially corresponds to the decomposition temperature  $T_z$  of the organic starting compound.
